

MEGA CLEAN ACTIVE

1. DESCRIPTION

MEGA CLEAN ACTIVE is a solvent & haze remover paste for the removal of most ink stains and emulsion residue in the screen. It is formulated to be brushed onto the screen and rinsed off of the screen with water.

2. APPLICATION

Before using MEGA CLEAN ACTIVE, the screen must be reclaimed.

Apply KIWO Mega-clean Active onto both sides of the screen using a brush. Dispose of any excess MEGA CLEAN ACTIVE; do not pour it back into the container.

Brush both sides of the screen. To prevent MEGA CLEAN ACTIVE from spraying off of the screen onto the user, rinse the screen with high-volume/low-pressure water followed by high pressure washer to remove the dissolved and emulsified residue.

MEGA CLEAN ACTIVE has strong cleaning power and may attack the frame adhesive, mesh, and frame if the product remains on the screen for more than 5 to 10 minutes.
